MAKE A BOOK OF YOUR MUSIC

WONDERFUL NEW INVENTION MAKES THIS POSSIBLE

LOOK over your Music and see how many copies are torn up the back or frayed on the edges. Some of these pieces cost you as high as seventy-five cents each. Is it not a shame to let these creations of art go to rack and ruin? Again, try to find some piece you have not used for a long time. After a patience-exhausting, music-racking search, you find it (like the proverbial needle hidden in the hay-stack). Or again, see your piano when littered up with piles of music. Does it look at all picturesque? Is it in harmony with the rest of the room? Still again, when you turn the pages of your music are you not annoyed by the loose inner sheets constantly slipping out and falling on the floor?

All these difficulties and annoyances are overcome by using:

THOMPSON'S "LOOSHEET" MUSIC BINDER

With these you can classify your music. You may bind 10 classical selections in one volume, 10 sacred songs in another, or 10 latest popular songs in another. Your music is kept neat and tidy. The volume breaks open flat on the piano, and there are no metal parts to scratch the instrument. Then by slitting the back of the music and fastening the little gummed tongue to the innermost sheet, all the sheets are held securely in position.

Now it would cost very little, and would be a delightful evening's work to bind all your music in **Loosheets**—and remember, any song may be easily and quickly removed or replaced, if you want to take it out at any time.

The **Loosheet Binder** is made in two sizes: **Quarto,** for regular sheet music, and **Octavo** for anthems, etc.

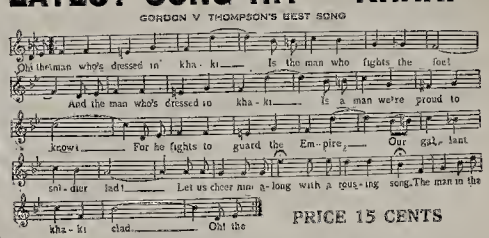

Most up-to-date dealers have these constantly in stock. If unable to procure these through your dealer, we will send you a sample on receipt of **20c**, postpaid.

MUSICAL HITS OF THE DAY

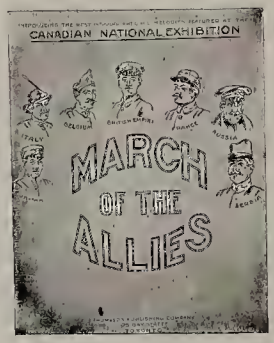

LATEST SONG HIT—"KHAKI"

PRICE 15 CENTS

"KHAKI" is a mighty popular color and a first-class military song. The words and music are by the favorite writer GORDON V. THOMPSON Get infected with the lilt of the chorus melody, and then send for the complete song. It is beautifully harmonized, and is splendid to play or sing. A really substantial patriotic song that makes a good solo or chorus.

MARCH OF THE ALLIES

What is developing into the most sensational instrumental number for some time is the piano arrangement of the best of the national airs of the allied nations by Arthur W. Hughes. Opening with the fiery "Marseillaise" in the key of C, one is thrilled with the brilliance of this historic melody, to which Frenchmen have shed their blood on many a battlefield. Suddenly the key changes to F, and next one hears the strains of the Russian hymn. Then comes the melody of Garibaldi's song, to which the Italians are fighting to-day. Typical Irish and Scotch airs set your feet going pit-pat, and then with a change of key, "Rule Britannia" is heard with all its grandness. The bass effect in "The Maple Leaf" is particularly striking. It gives the old Canadian song a new meaning. Of course, the medley concludes with "God Save the King," but the way the writer has arranged this greatest of all melodies gives it a newness and grandness that beggar description.

Withal the piece is easy to play and is mostly in the open key of C. It changes twice to one flat.

Those who witnessed the great "March of the Allies" at Toronto Fair will want this piano arrangement as a souvenir.

Get this catchy waltz-song hit that is so popular with the orchestras and bands. A splendid serio-comic song with a "go" to it.
